

Please do not allow the new LPFM stations to take priority over the current FM service. I listen to a regional service, K-LOVE, which I find is an invaluable tool to my listening pleasure and fulfillment. It is a family friendly service that offers selections that are not offensive, that all family members can enjoy. Many of my friends also enjoy the music of this station. The services of K-LOVE encourage and uplift and the effects of replacing it would result in detriment to the public. Thank you
